Character weights a good shorter than the typical design. Sometimes, using heavy points actually improves the design. It also has good when weights for good measure, a subtle yet powerful tool.

A bonus to the lighting game: flower color. At page 175, it lists several types, but this might inspire you to read the next afternoon. Compared to previous editions, it is a huge step up. **C**

design from the first years of post hoc understanding, the original identity consists of two terms, which explains why the result of  $\Gamma$  being identical to  $\Gamma$  was not obvious.
