PROJECT 01: Design/Culture Moodboard

INTRODUCTION

It's time to take a deep dive into exploring the visual storytelling of Ironrise. As a compliment to the visual references you've gathered to date (and those shared in my lectures) – we'll be building (and presenting) a collection of design and culture moodboards.

Oh, and you'll be building a small slide deck for your presentation as well!

PROCEDURE

1. Choose a design style/movement that you feel is appropriate for the environment, story and themes of Ironrise. This will involve some research.
2. **Your chosen style cannot be a reference to another game. Focus on art and design history and/or other creative mediums (film, animation, book covers, posters etc.)**
3. Aim for 10-15 images. Include architecture, fashion, art, design, and if applicable, typography.
4. **You may expand upon any current references that you have already assembled.**
5. Chose your strongest references and build a presentation that is 4-6 slides. Be sure to clearly introduce and explain your chosen style.
6. **Presentation/discussion is the main focus of this project. For this assignment, you are the teacher.**

DUE DATE

Friday, February 27th, 2026

Presentations on the above date.
