Due: Saturday April 11th, 2026

Module 4 – Final Wrap Up

Assignment 4

Introduction:

This final assignment invites you to look back on your experiences this semester, both in GD2 and the broader GS4 project, and reflect on how you've grown as a student, teammate, and emerging professional. You have put significant effort into your group project, and while the process was not always smooth, there is always a lot to learn from the ways teams communicate, collaborate, and respond to challenges.

This reflection is not meant to criticize yourself or your classmates. Instead, it is a chance to recognize what went well, acknowledge the moments that felt difficult, and identify the habits and skills that will help you succeed next year and in your future career.

Personal Reflection:

Respond to each prompt below using a full, thoughtful paragraph. Your writing should not reference the question directly, but you should instead write your response so that the question *could be removed* while the meaning remains clear.

(Example: “Three things I learned this semester include...” instead of “The three things I learned were...”)

Your completed reflection should be **250–500 words total**. Some questions may require more space than others but try to give each. Use your judgment to create a balanced and coherent document.

Personal Reflection

- What are three things you learned about the game development in general this semester?
- What were three soft skills you observed in your classmates that positively contributed to teamwork, communication, or a supportive learning environment?
(Examples: patience, clarity in communication, conflict resolution, initiative, reliability, openness to feedback, etc.)
- How did each of the three soft skills from the previous question support the project, class, or individuals?
 - *Provide a sentence on each.*
- What are three things you feel you personally did well this semester. This could be in your project work, communication, professionalism, or the way you adapted to challenges.
- How did each of the things you did well contribute to the project, class, or supporting your classmates?
 - *Provide a sentence on each.*
- Which soft skills do you believe you demonstrated that supported your classmates or project group effectively? How did each skill have a positive impact on the project, classroom, or classmates?
 - *Include 2-3 skills and provide a sentence on each.*
- Which soft skills would you like to continue developing moving forward, and why are those important to you as a future professional?
 - *Include 2-3 skills and provide a sentence on each.*
- What did you learn this semester about working on a long-term, collaborative game-development project, and what aspects of that experience stood out to you?

- What are three things you could work on or explore over the summer that would meaningfully support your game-development career or your professional growth?
- What is one aspect of the program you feel helped you learn more effectively this year, and one constructive change you think would better support future students?

Task Overview:

Complete the questions above and provide a professionally formatted document as a **PDF** (no word docs, links, etc.).

Assignment Guidelines, FAQ and Hand In procedure:

- Your header should include your **name**, **class name**, **assignment number**, a reasonable **title** (“My Reflection” etc.) and **date**. Document formatting, naming, and presentation are assessed under ‘Professionalism, Clarity, and Reflection Quality.
- Your document should follow consistent naming guidelines [e.g. GD2_A4_DylanF.PDF]
- Your document should be professionally formatted (Titles larger than text, some effort to lay out elements, proper spacing, reasonable fonts etc.)
- You should use complete paragraphs and full sentences.

AI Usage Guidelines:

No AI usage should be needed for this assignment.

Rubric: Module 4: Reflection

(3 Points x 4 Categories = 12 Points Total)

1. Completion & Thoughtfulness: [_/3] Points

3 points: All required prompts are answered in full paragraphs that show genuine reflection. Responses demonstrate that the student has taken time to think about their learning, their teamwork, and their own development.

2 points: Most prompts are answered clearly, but a few may feel brief, under-developed, or missing detail.

1 point: Several prompts are missing or answered at a very surface level.

0 points: The work is incomplete or does not address the expectations of the assignment.

2. Clarity, Structure & Professionalism: [_/3] Points

3 points: The writing is easy to follow, well-organized, and presented professionally. The document stays close to the 250–500 word range and uses consistent formatting and clear headings.

2 points: Generally clear writing, though there may be minor issues with structure, flow, or formatting. Word count may be slightly outside the guidelines.

1 point: Writing is disorganized or difficult to follow, with noticeable issues that affect readability.

0 points: The document is not professionally formatted or does not follow the basic assignment instructions.

3. Specificity & Insight: [_/3] Points

3 points: Responses include specific examples from the student's work this semester. The writing shows meaningful insight into teamwork, communication, and personal growth.

2 points: Some specific examples are included, but several responses may feel general or not fully explored.

1 point: Little to no detail is provided; answers rely on general statements without reflection.

0 points: No evidence of reflection or engagement with the prompts.

4. Presentation & Final Polish : [_/3] Points

3 points: The submitted PDF is organized, readable, and carefully proofread. Spelling, grammar, and sentence structure are strong, and the overall document looks professional.

2 points: The PDF document is mostly polished, with only a few small mechanical or formatting issues.

1 point: Frequent spelling, grammatical, structural errors or inconsistent formatting distract from the overall quality.

0 points: The work is unpolished or is not submitted as a PDF.

Total: 12 Points

Additional Policies: See the Course Outline for details on Late Submission and additional AI usage guidelines.
